Alexander Giovannelli

Phone: +1-740-258-9709
Email: agiovannelli@vt.edu

Summary

My research interest lies in the intersections of Human-Computer Interaction (HCI), Augmented/Virtual Reality (AR/VR), and 3D User Interfaces (3DUI). My current work involves prototyping and evaluating visualizations for collaborative work in AR/VR. Specifically, I am exploring how we could improve non-verbal communicative cues when using avatars in immersive collaboration applications.

Education

Virginia Tech — Blacksburg, VA, USA
Ph.D. in Computer Science advised by Doug A. Bowman, GPA: 4.00/4.00 — Aug. 2021–Present

University of Cincinnati — Cincinnati, OH, USA
B.S. in Computer Engineering with German Studies minor, GPA: 3.30/4.00 — Aug. 2013–May 2018

Skills

Programming Languages: C#, JavaScript, Java, Python, HTML, CSS

Development Tools: Unity, Git, Jira

Research Tools: JMP, SPSS, LaTeX, Tableau

Experience

Virginia Tech — Blacksburg, VA, USA
Graduate Research Assistant — Summer 2022 & Present

- Conduct research regarding collaboration and affective visualization enhancements for avatars in augmented and virtual reality
- Generate prototype applications and experimental studies using C# and Unity technologies
- Design and administer user studies in accordance with Institutional Review Board regulations
- Analyze user study data using Python, JMP, & SPSS technologies

JPMorgan Chase & Co. — Columbus, OH, USA
Associate Software Engineer I — Jul. 2018–Jul. 2021

- Developed front-end features for Chase.com using JavaScript, HTML, and CSS technologies
- Designed and implemented minimum viable product user interfaces via Figma design tool
- Authored technical documentation for product owners and developers
- Appointed subject matter expert in behavioral-driven development and CI/CD initiatives
- Automated logging of proprietary systems using the Python programming language

Siemens Healthineers — Forchheim, BY, DE
Software Engineer Intern — Jan. 2017–Aug. 2017

- Developed back-end software for use in advanced therapy devices using the C# programming language
- Created system architecture diagrams to record project design changes and behaviors with Sparx Enterprise Architect
- Represented project team in international software system integration meetings using German and English languages

Projects

- Virtual Avatar Reaction Visualizations in VR — Jun. 2022–Present
  Development of a virtual environment for user studies investigating avatar reaction visualizations in collaboration
- Environment for Intermittent Typing Experiments in VR — Jan. 2022–May 2022
  Created a virtual environment with mixed reality capabilities for conducting text-entry user studies
- Smart Lighting Design in Immersive VR — Jan. 2022–Apr. 2022
  Developed methods and techniques to support smart real-time lighting design in virtual reality

Awards & Scholarships

- Honorable Mention for Best IEEE ISMAR 2022 Conference Paper [3] — 2022
- Best 3DUI Contest Entry [4] — 2022
- International Co-op Program Scholarship — 2016–2017
- Matrix Technologies, Inc. Co-op Scholarship — 2014–2016

Teaching

- **Graduate Teaching Assistant** at Virginia Tech — Fall 2022
  Comparative Languages (CS-3304)
- **Graduate Teaching Assistant** at Virginia Tech — Fall 2021 & Spring 2022
  Software Design & Data Structures (CS-2114)

Organizations

- Member of Computer Science Graduate Student Council — 2021–Present
  Represented the interests of the CS graduate student body, helped organize social events among graduate students, and helped incoming students become familiar with departmental procedures and activities
