SUMMARY

My research interest lies in the intersections of Human-Computer Interaction (HCI), Augmented/Virtual Reality (AR/VR), and 3D User Interfaces (3DUI). My current work involves prototyping and evaluating communication methods for collaborative work in AR/VR. Specifically, I am exploring how we could improve non-verbal communicative cues when using avatars and visual information in immersive collaboration applications.

EDUCATION

Virginia Tech

Ph.D. in Computer Science advised by Doug A. Bowman, GPA: 4.00/4.00

Blacksburg, VA, USA

Aug. 2021–Present

University of Cincinnati

B.S. in Computer Engineering with German Studies minor, GPA: 3.30/4.00

Cincinnati, OH, USA

Aug. 2013–May 2018

SKILLS

Programming Languages: C#, JavaScript, Java, Python, HTML, CSS

Productivity Tools: Unity, Git, JMP, SPSS, LaTeX, Tableau

EXPERIENCE

Lawrence Livermore National Laboratory

Computing Research Intern

Livermore, CA, USA

Summer 2023

- Perform contextual inquiry and analysis to derive research intent and contribution for project team
- Create prototype applications for virtual reality experiences using C# and Unity technologies
- Facilitate meetings between multi-disciplinary project stakeholders

Virginia Tech

Graduate Research Assistant

Blacksburg, VA, USA

Summer 2022 & Spring 2023

- Conduct research regarding collaboration using avatars in augmented and virtual reality
- Generate prototype applications and experimental studies using C# and Unity technologies
- Design and administer user studies in accordance with Institutional Review Board regulations

JPMorgan Chase & Co.

Associate Software Engineer I

Columbus, OH, USA

Jul. 2018–Jul. 2021

- Developed front-end features for Chase.com using JavaScript, HTML, and CSS technologies
- Designed and implemented minimum viable product user interfaces via Figma design tool
- Authored technical documentation for product owners and developers
- Appointed subject matter expert in behavioral-driven development and CI/CD initiatives

Siemens Healthineers

Software Engineer Intern

Forchheim, BY, DE

Jan. 2017–Aug. 2017

- Developed back-end software for use in advanced therapy devices using the C# programming language
- Created system architecture diagrams to record project design changes and behaviors with Sparx Enterprise Architect
- Represented project team in international software integration meetings using German and English languages

PROJECTS

- Avatars for Multiscale Collaborative Virtual Environments Mar. 2023–Present
Design and prototyping of a virtual environment for collaboration in multiscale inspection processes
- Virtual Avatar Reaction Visualizations in VR Jun. 2022–Mar. 2023
Development of a virtual environment for user studies investigating avatar reaction visualizations in collaboration
- Environment for Intermittent Typing Experiments in VR Jan. 2022–May 2022
Creation of a virtual environment with mixed reality capabilities for conducting text-entry user studies

AWARDS & SCHOLARSHIPS

- Davenport Leadership Fellowship 2023–2024
- Honorable Mention for Best IEEE ISMAR 2022 Conference Paper [3] 2022
- Best 3DUI Contest Entry [4] 2022

TEACHING

- **Graduate Teaching Assistant** at Virginia Tech Fall 2022
Comparative Languages (CS-3304)
- **Graduate Teaching Assistant** at Virginia Tech Fall 2021 & Spring 2022
Software Design & Data Structures (CS-2114)

ORGANIZATIONS

- Member of Computer Science Graduate Student Council 2021–Present
Represented the interests of the CS graduate student body and assisted in event planning
- Member of the Center for Human-Computer Interaction 2021–Present
Active participant in the Center seminars regarding the study of human-computer interaction
